- The school campus has been thoroughly cleaned and sanitized during the special holiday whilst all staff have stepped up on all anti-virus measures to safeguard both personal and school hygiene. The School has also requested all staff to take antigen test and body temperature before coming to work and call in sick when the test reads positive, fever in particular.
- In order that students can do their learning in a clean and safe environment, home-school cooperation is of utmost importance. We urge parents to observe household hygiene and put into practice the following measures:
  - Pay heed to your child's daily medical condition, seek immediate medical advice if he/she develops symptoms, fever in particular, and call in sick to apply for sick leave
  - Take body temperature and antigen test of your child every day before he/she leaves home for school and complete/endorse the record sheet in Appendix 3. In case the test reads positive, students should not come to school and report to CHP as per request from the government.
