C. Synopsis

‘Suicide Squad’ is one of the highest grossing films of 2016. Directed by David Ayer and starring with Will Smith, Margot Robbie and Cara Delevingne, the movie is based on the DC Comics antihero team of the same name. The story followed the aftermath of Superman’s death. The government assembled Task Force X, a team of dangerous, crazy, insane criminals to protect the country. Though it is a superhero film, this time the bad guys were our only hope and heroes who could save our world.

D. Opinion

Enchantress is the villain who is about 6000 years old and this role is played by Cara Delevingne. She is one of the most talented actresses I’ve ever known. In the film, she decided to eradicate humankind. Here came the “hero”. The main story line started off with the hitman Deadshot, who was played by Will Smith. Deadshot was really good at using all kinds of weapons. He could kill an army with a handgun, which made him the main character in the Task Force X. Then the next was the psychiatrist, Harley Quinn, who was played by Margot Robbie. Harley Quinn was also known as Joker’s girlfriend. Her mind was filled with horrible and crazy ideas that would get everyone killed. With the help of other criminals, they ended the evil plan of the Enchantress and saved the world.

#### E. Recommendation

I think this film is not just about saving the world, but also filled with funny jokes and humor. Also, the setting and effects make it more intriguing. But there are some scenes that didn't make sense. Enchantress destroyed everything, and the US army tried everything and used all the weapons that they had to destroy her, which of course didn't work. But in the end, the team just used a simple bomb to kill her. Apart from that glitch, 'Suicide Squad' is highly entertaining and I recommend this to everyone that loves superheroes.
