

Michael Jackson – A Biography

by Louis Lau (2D)

'So beat it, just beat it', is a well-known line from the lyrics of a legendary song 'Beat It' by Michael Jackson – the King of Pop. He is not only a great American singer, but also a songwriter, record producer, dancer, actor and philanthropist. His songs break racial barriers. In addition to his complicated dance techniques such as the robot dance and the moonwalk, his fans just could not stop loving him.

His full name is Michael Joseph Jackson. His albums have always topped the best-selling charts and he has been recognized as the most successful entertainer of all times by the Guinness Book of World Records. He is not only one of the few artists to have been inducted into the Rock and Roll Hall of Fame twice, but also inducted into the songwriters Hall of Fame and the Dance Hall of Fame. He received more musical awards than any other artists.

I think Michael's great success is due to his hard work and dedication to his career. He has a kind heart as he spent his earnings supporting 29 charities. It may be the reason that so many people love him. Many people can learn from Michael Jackson because he had never given up his career even though he encountered hard times. It is his passionate work attitude that I want to learn from. Other than never giving up and being hardworking, I admire his innovative attitude towards his dancing and singing style. Audiences always had new things to see even though he was performing the same song as before.

Michael Jackson is my role model because he was a very successful man in music. His distinctive voice and style influenced numerous artists in various music genres. I want to act like him and have a chance to sing my own song and present it in my own way of dancing. I love music.
