

A Letter of Gratitude for the Enthusiast Scholarship

Dear Mrs Wong,

I am writing from my heart to thank you for your donation to the founding of the Enthusiast Scholarship. As one of the winners of this Scholarship, I am very honoured and I sincerely believe that it has encouraged me to walk further along the path of English learning.

Through joining different kinds of English activities at our school, I have gained valuable experience and knowledge. As the president of English Society last year, I also shouldered many responsibilities, which include promoting English to my fellow schoolmates as well as organising various activities such as the Winter Carnival and Halloween Carnival.

Apart from school activities, I have also been very enthusiastic in joining off-campus events. I took part in several speaking competitions such as the Inter-school English Speaking Competition held by Confucius Hall Secondary School and the HKFYG Standard Chartered Hong Kong English Public Speaking Contest. Although I didn't get any awards, the experience definitely benefited me greatly. Our principal and teachers are impressed by my astounding improvement in English and I have learned to become calmer when I speak in public.

The scholarship is a recognition of my efforts and an important milestone in my English - learning journey. I would like to take this opportunity to express my gratitude to you and I will spare no effort to study English and promote it to all the students at our school.

Yours sincerely

Kelvin Shum (S5D)
