

My Dream Job

by Coe Woo (1D)

Do you have a dream job? I have an extensive amount of jobs that constantly come to my mind, but there is only one that I would really consider calling my 'dream job'.

Can you guess what my dream job is? This job requires a lot of patience, love and leadership. You will often see her shadow at school. She helps others to acquire knowledge, competencies and values. Sometimes she is strict because children do not hand in homework on time. That's right – I want to become a teacher.

Do you think being a teacher is great? When I am upset, my teachers will comfort me and encourage me to keep working. They are indispensable and like my second parents. I really hope that I can one day play this role too. I want to make children happy and help them to prepare for the future.

I hope this dream will come true. I will need to work hard! I think I will get my dream job in the future.
