

Joyful Learning Group Newsletter (Issue 4)

SUMMER HOLIDAYS ARE JUST AROUND THE CORNER!

The long and exhausting examination is finally over! Same as everyone, the Joyful Learning Group can't wait for the summer holiday to come, and so have taken the initiative to organize a series of post-exam activities for our NCS. Let's experience an energetic summer with them!

Sports are a must for summer. Students actively took part in football, volleyball and shuttlecock kicking matches.

Students examining panda faces during a visit to Ocean Park.

Ti Jian (shuttlecock kicking) is a traditional Chinese sport in which players compete to keep a shuttlecock in the air for the longest time by kicking it with their feet.

SHARING CORNER

Time flies and the joy of the post-exam period marks the end of this school term. How does it feel to study in BWFLC? What is the most impressive event to them? Some of our NCS would like to share with you.

1B Moe

The most impressive event is the visit to Ocean Park. It's interesting. I have learnt about how pandas live and how they are born. I enjoyed the workshop and I have fun. The teacher of the workshop is very kind and nice. I hope we can go again next year.

1B Sayal

The most impressive event is the football competition. We scored 5 goals in 1 match. I have learnt to respect each other and be helpful.

2D Mehran

The most impressive event is the football competition. Though we didn't perform well, our team spirit is very strong. I was deeply touched.
