

BUDDHIST WONG FUNG LING COLLEGE

2023/24 NON-CHINESE SPEAKING STUDENTS JOYFUL LEARNING GROUP NEWSLETTER ISSUE 1

13th November, 2023

Two months in, the S1 newcomers are gradually adapting to the campus life and integrating into the community. It all started in the summer when we had our holiday activity - Foodstep Journey!

Foodstep Journey

This summer, our pre-S1 students joined a workshop held by Food Angel. It aims to raise their awareness of cherishing food and caring for the community.

Have you ever thought about what it is like to live in a subdivided flat? Any idea how small that would be? Our students experienced the life of an elderly person who makes a living collecting scraps and learned to analyze the issue of elderly poverty.

VR Film acting as different food

In the VR designated area, students saw the world through the eyes of different food groups and experienced first-hand the unfortunate process through which large amount of edible food is wasted.

MORE ON THE
OTHER SIDE

A whole new project for our NCS students - NCS Fung Ling Programme

This year, we started a new program - NCS Fung Ling Programme. The School Counselling Team worked hand-in-hand with the Discipline Team to arrange a series of team-building and problem-solving training, in order to enhance students' resilience and nurture positive values. The whole programme include several Support Groups sessions and a number of Outdoor Activity Days. Below is the first Activity Day for our S.2-3 NCS students.

The first Activity Day - Dodgebee

Have you heard of Dodgebee? It is a sport inspired by dodgeball, involving teams throwing a flying disc at members of the opposing team. Let's browse through some of the photos of the day.

As intense as it could be! Both teams are fighting for the win

Win or lose. They all have a smiley face after the game.
