Subject: An Unforgettable Day

Hi Fred,

How are you? Did you have any special experiences recently? I did. I couldn't imagine what happened to me yesterday! I lost my smartphone and it was a miserable experience.

Yesterday, I lost my phone at school. It was slim and light. Besides, I also lost my phone case and my student card. My phone case was very expensive. I have been so unlucky recently.

After school, when I wanted to call my mum, I couldn't find my phone. It was gone! I felt worried and sad. It was because it was brand new and expensive. I spent a lot of pocket money to buy it. My friends helped me look for it at our school campus, but our effort was in vain. I felt so hopeless. All my valuable photos and video clips with my friends and family were lost. I lost all my contact numbers as well. It was disastrous. I blamed myself for being so careless. Besides, I realized that I relied too much on my phone. That night I felt empty without it.

Today, I arrived at school early. While I was reading an English book in the morning reading session, my class teacher, Miss Poon, gave me my phone. She said that I had left my phone in a toilet on the fourth floor. I was very happy to get it back. She said that it was picked by Mandy of 4B. She was so nice! Miss Poon reminded me to hand in my phone every morning. In the past, I thought it was unnecessary.

It is an unforgettable experience. I had a hard day without the phone. Hope to hear from you soon!

Best wishes,
Amanda
