Dear Diary,

Today was the first day of the Year of Dog and I went to visit my grandma with my mum and dad.

I took a bus to go to my grandma's home. I went there to pay a New Year visit and have a family dinner. I ate a lot of foods on that day, such as New Year cake, turnip cake and glutinous rice balls. I was so full on that day.

My favourite New Year food was glutinous rice balls. They tasted chewy and sweet. They were made of glutinous rice flour and my favourite filling was sesame. Glutinous rice balls symbolize reunion and lots of blessings because of their round shape. I believe they will bring harmony and peace to my family.

I was so happy today. Every Chinese New Year is so unforgettable. I hope that in this coming new year I can realise my dream: everybody around me will have a healthy body.
