

My favourite singer

Mirang Rai (3D)

My favourite singer is Ed Sheeran. His birth name is Edward Christopher Sheeran. He is an English singer, songwriter, guitarist, record producer and actor. He has fair skin and red hair. He is average in height and a bit chubby. He is a hardworking person who has put a lot of effort into becoming successful.

Speaking of success, his meaningful lyrics and calming voice are the main reasons for his popularity. His songs make people smile and sometimes make them emotional. He has also done some rap songs with famous rap artists such as Eminem. The reason why I admire him is that regardless of how many times he fails, he never lets his fans down.

He always provides us with awesome lyrics that have meaningful messages in them. Unlike other artists who always write songs about love, Ed Sheeran's songs are about family, friends and life. So, I truly adore him.
