

## Homework-Free Holiday

3B Yu Cheuk Hei (25)

If I had a homework-free holiday, I would like to take a cooking class because I would like to prepare a dinner for my family.

In addition, I would do more sports such as badminton, running, swimming, etc. I would exercise for an hour each day. Moreover, I would learn some new sports such as basketball, football and so on.

Also, I would visit the library to borrow some books, especially books on politics or finance. I would spend two hours on reading every day.

I would take part in some volunteer activities to help the street sleepers. I would deliver free meals to them and chat with them.
