

A Profile of Myself

By Chan Yui Yin (1E)

Hi, my name is William. I'm a twelve-year-old student studying in Buddhist Wong Fung Ling College. I'm studying in 1E. I'm fat and short. I'm also generous and kind because I want to make a good impression on others. Besides, I plan to do more sports in the coming year because I'm weak in PE.

I grew in a happy and healthy family with my mom and sister. We live in North Point, which is on Hong Kong Island. I go to school by tram because it's convenient.

My hobbies are painting and making handcrafts because they are fun and they allow me to express my creativity. Moreover, I enjoy eating pizza and ramen. I think they are very delicious. I also like English and Math the best because I'm good at them.

Lastly, I want to be an archaeologist when I grow up, because I like exploring things from the past and knowing how the past is like from the fossils.
