

A day to remember

By Rai Samuel (1B)

In October, we had our sports day at Hammer Hill Road Sports Ground. It was very sunny and hot. We were dying from the heat.

First of all, our principal gave an inspiring speech at the opening ceremony. Then we sang the school song together. After that the competition finally started, and the spectators were extremely excited and eager to see different events begin. The first event was the 1500-meter race. So many students participated in this event. My classmates also did. When the race started, we were very excited and cheered very loudly. Izabella started the race, she ran full speed not knowing she had to run 3.75 laps around the track. Eventually, she ran out of stamina midway. After the race she passed out. Well, that's a day to remember.

Now I'm going to tell in which events I participated. I took part in a variety of events such as 100-meter sprint, 200-meter race, 4*400 student relay race and 4*100-meter student relay race. We got the championship for the 4*100-meter student relay race. However, I was very sad in the 100m sprint. I won but I got disqualified for running into someone else's lane. When I heard the news, I was upset. I really learned a good lesson and I'm confident that I will not make the same mistake next year.

The most memorable event was the inter-class race. Every class took part in it. We were all very excited to see our classmates and friends from other classes participate in the event. At the cheering event, I held up the banners while everyone chanted "let's go 1B!" and shook their pompoms. Eventually we didn't win the cheering event.

I was sure it would be a tough race. When the race started, our class was the last one, but as it went on to the end, we won the championship. Our classmate caught up with the leading teams thanks to Chitish. Our classmates were so happy that they couldn't stop yelling and congratulated us on winning.

Finally, it was time for the prize-giving ceremony and the closing ceremony. Kelly won a cup because she broke the school record for Discus Throw. The closing ceremony was a bit too long and we were all bored at that moment. Overall, this year's Sports Day was so memorable. I hope I would have a better experience next year.
