

LOVE LEARNING

By Yeung Chung Yin (4B 20)

Dear school library,

You are a treasure house that can provide me with knowledge through books. In my free time, I always love to go to the school library to read books so as to immerse myself in different worlds and cultures.

When I was studying in primary school, I served as a librarian to help classmates borrow books and sort the books. Staying with you has been my most enjoyable moment. When I had nothing to do in the library, I picked up various books and started my imagination journey among books. Sometimes I travelled in the ancient time and sometimes in the space. I could even travel the world in 80 days!

Besides general knowledge and literature, I can absorb a lot of knowledge related to academic learning from you. There are lots of materials such as books, e-books, magazines, newspapers, reference materials and digital resources that can help me learn diverse knowledge and arouse my interest in reading. You also provide a quiet place for me to stay away from the crowded canteen and busy schedule such that I can concentrate and learn better. As the saying goes, "I have no special talent, I am only passionately curious." Without you, I cannot attain satisfactory academic results.

Staying with you is the best experience of my life. I am more than glad to read books with you. I hope more people can understand your benefits. To let others know more about you, I promise I will promote more events that show your positive effects on us.

Thank you so much for your contribution and rich knowledge with all my heart!

Love,
Michael
