

A Special Day

by Zhang Daren Ho Ming (Junior)

Everybody has a very special day in their lives. I think my special day, however, is so special that I want to share it with you. On that day, a family member of mine introduced me to one of the best authors of all time. The author's name is Dan Brown. He is known for books, such as The Da Vinci Code and The Deception Point.

Why is he so special? First, I get to learn new words while reading his engaging stories. So far, I have read Deception Point. This book has a lot of backstabbing, betrayal and corruption elements inside. This book is basically about a presidential election of two parties. Each party has plans to sabotage the opposite party. After reading this book, I think it is relevant to our world now. There can be many awful things happening and we will never know. This book introduced me to a world where if everyone is corrupted, taking bribes and betraying everyone, in the end, no one will win. As for the book, it is long and consists of 400 pages. However, it is very easy to read and understand, I would recommend this book to teenagers so they could understand more about this world

The person who recommended this book to me is my brother. He is one of the people who inspires me the most. He told me that this book reflects a lot of the modern world where people are always selfish. So what makes that day so special? The day my brother introduced this book was also my birthday! After receiving the book, my brother and I went to eat at a fancy restaurant and bought a new phone with a travelling kit to prepare for my trip to Canada where I will visit my relatives. After shopping, I went to my friend's house to sleep over, we had so much fun. That day was one of the most special and memorable days of my life.
