

A Special Day

by Kimmy Lam Ho Lung (2E)

During the summer holiday, my parents decided to take me to Hong Kong Disneyland. I had a wonderful time there. At 8 o'clock in the morning, my parents and I went to the bus station. After a few minutes, we boarded the bus and soon we arrived at Hong Kong Disneyland.

We first went on the Big Grizzly Mountain Runaway Mine Cars. I did not expect it to go backwards extremely fast. It was such a thrilling ride! Next went to the Castle of Magical Dreams where we were told about the stories of Disney princesses. We also admired the gorgeous structures. After that we went on the Dumbo the Flying Elephant ride. As we were taking off to the skies, I could feel the wind blowing past my face. I could also use the lever inside the Dumbo gondola to direct it to fly low or high.

Afterwards we went to Hyperspace Mountain. The ride was appealing. Finally, we went to the Cinderella Carousel, where a cool breeze brushed across my face. It was very relaxing. Since it was 5 o'clock in the afternoon, we decided to head home. When we got home, I jumped on the couch and took a nap because I was exhausted after all the excitement. It was an excellent day!
