

The Speech-Outdoor Learning Activity

Good morning, Principal, teachers and fellow schoolmates. I am Chris Wong from the English Ambassador (EA) Team. I'm here to talk about an upcoming study trip to Sydney, Australia for S1 to S4 EAs.

The sole purpose of this study trip is to enhance our English proficiency by learning English from native English speakers and to improve our communication skills. The EA Team aims to achieve this by including several activities and places of interest to not only improve our English but to also make this a memorable study trip.

We will be taking a 9-hour flight to Sydney and stay there for 4 days and 3 nights. Firstly, we will visit the Sydney Observatory. The Observatory offers a chance for us to see the southern skies of the city through modern and historic telescopes. We chose this location because visitors may learn English from several historic descriptions provided by the Observatory. Additionally, we may get a chance to take a close-up look at the planet and stars above.

Secondly, we will visit a UNESCO heritage site, which is the Blue Mountains National Park. The site is a delight to the eyes with dramatic waterfalls and beautiful greenery. We will be accompanied by a tour guide who will further explain more about the deep ends of the park.

Lastly, we will take a scenic ferry ride to Watsons Bay. We have arranged a few must-try local restaurants for our selection of food. You should be ready to feast on an array of fresh delicious seafood and a vibrant hawker-style restaurant filled with a range of savoury Asian cuisines. We think these popular selections will be a hit among students.

In conclusion, we aim to improve the English language skills of fellow EA team members as well as making this a memorable study trip. If you have any inquiries about the trip, please ask me or any of the committee members from the EA team. Thank you very much for your kind attention today.
