

The speech-Outdoor Learning Activity

Good morning Principal, teachers and schoolmates. Let me introduce myself. My name is Chris Wong and I am a committee member of the English Ambassador Team. This morning I'd like to speak to you about a recent trip to South Korea with all the EAs who come mainly from S1-4. Our aim of this trip is to learn about other cultures and promote cultural diversity through English.

Korea is known for its dynamic blend of traditional culture and hyper-modern technology, its globally popular pop culture like K-pop and K-dramas, delicious cuisine, and high speed internet. First of all, let me tell you about Jeju Island. Jeju Island is highly popular due to its breathtaking landscapes. Its appeal is heightened by its unique culture, such as the famous Haenyea female divers, distinct local cuisine like black pork and offering a perfect natural and cultural escape. Secondly, there are many popular things to do in South Korea, such as exploring historical sites like Gyeongbokgung Palace and Bukchon Hanok Village as well as experiencing vibrant city life in Seoul's Myeongdong. Not only does Korea have many fun things to do, but it also has much must-try local food, such as bibimbap, tteokbokki, kimbap and Korean fried chicken.

In conclusion, this trip has enabled students to be more educated by turning history, culture, language and technology into real-life experiences rather than just textbook ideas. Exploring palaces, museums and historic villages builds knowledge of Korean history, while daily interactions, signs and markets help develop language skills and cultural awareness. This is the end of my speech. Thank you for being such an attentive audience.
