How would I decorate my locker?

If I were allowed to decorate my locker at school my own way, I would like to put some magnets on it as I think some of them are so exquisite. I can also put a magnetic board on it and write down my schedule with a marker to remind me of things to do every day.

Moreover, I would buy three little drawers and use them to keep my stationery. If I could paint my locker, I would paint it with different colors and patterns. For instance, dotted and striped patterns with rainbow colors are the most desirable.

Furthermore, it would be good to stick my revision timetable for efficient study. I would like to set up rules to maintain self-discipline in my study and stick them on the door of the locker as well.

What's more, I will place my handcrafted artworks on the top of it, such as dolls made by clay, dream catchers, sculptures and so on. I may stick a few adorable stickers to fill in the space. On the left hand side, I will write a piece of self-introduction so that other people know more about me.
