

## The Profile of Neymar

There are many amazing sports in the world but soccer is the one I like most. I like soccer because it is an art. There are so many skills and tactics to win a football match. Each team member has his role like defender, striker or goalkeeper. To score a goal, we need to cooperate with our teammates.

And the soccer player who I admire very much is Neymar da Silva Santos Junior. He has been playing football for a long time. He started to play football when he was a child. He was born in Brazil on 5 Feb 1992, and he is 174cm tall. As we know, Brazil is the kingdom of soccer. It is famous for football and the people there are good at playing the game.

Neymar plays for Brazil National Team and FC Barcelona Team, a Brazilian Cup and he is the striker of these two teams. He was the winner of the Best Player of the Brazilian Cup Tournament and was also the leading scorers with 11 goals.

As for his interests, he has become an icon in promoting Brazilian modern pop music. He likes to dance and sing after scoring goals in football games and has appeared live in concerts.

His motto is 'Ousadia' and 'Alegria'. 'Ousadia' means 'daring to do something new and exciting.' 'Alegria' means 'happy'. So, he is happy to play for Barcelona.
