影片拍攝後需要整理及處理大量素材，對影片或故事要有一定的分析、重組、節奏控制能力。現時大多數入職人士都具相關學歷。

給同學的話

中學時期是其中一個發掘及發展潛能的好時機。除了為學業努力，建議同學可多嘗試各類型活動，好好了解自己的愛好及潛質。參加課餘活動能提升你的各方面能力，例如學音樂，除了能提升音樂水平外，也可以學到樂團管理、團體合作、自律等能力，同時音樂也可以幫助你舒緩壓力。我現時的職業(音樂及剪接)都是從中學參加課外活動時接觸到的，這有助我計劃明確的升學目標，大學時亦已有一定的拍攝基礎，令學習進度比較順利。

如未能在中學時期找到自己的興趣也不要緊，可先專注好學業，因中學只是人生中一個階段，最重要是對未來抱有希望，慢慢探索及了解自己。

When I first joined the job shadowing programme, I was nervous and worried about whether I could help the primary students with their school work. To my surprise, it boosts my confidence in getting along with young learners.

My job is to give homework guidance to a primary school student. At first, I thought it was a piece of cake. However, it is not about how good my academic knowledge is, but how well I get along with her. Besides, it tests my temper and patience.

From the programme, I have a better understanding of myself and the job nature of teaching profession. It also gives me a chance to explore the ways for better communication and delivery of messages. So, it is worth putting my effort into the programme and it is definitely fruitful and rewarding.

In Hong Kong, many parents want to give the best to their children and will send their kids to a tutorial class where they can focus on their homework and study with the help of the tutor. A tutor is like a teacher who guides you on how to do better in a friendly way and gives you individual help.

Last year, I was lucky to be given the opportunity to become a tutor for a day. During which, I was helping two primary students with their homework and give them advice on how to study Math.

During the training session, we were told to be kind and patient. The kids were shy when they first met me, but after a few minutes of self-introduction, they quickly opened up to me. I got to help them finish all their homework. Then, we played a few games before we left. It was definitely a fun experience and it showed me how patient tutors have to be and how gentle they need to be. After the programme, I learnt some skills to communicate with kids and realized that teaching is not an easy task.
