■ 入職要求

如想從事這個職業，需要修讀醫學、活動策劃或相關科目的學位，且具備良好的溝通能力和組織能力。

■ 工作的苦與樂

快樂在於能看到醫療人員因為參加活動而提升了個人專業素養和技術，從而感受到自己的價值；而挑戰則在於需要處理活動緊密的流程和預算控制，並確保每個活動能順利進行。

■ 為何會選擇入行？

作為醫學教育活動策劃專員，我選擇這個行業主要是因為我熱愛健康管理和活動策劃。這個角色讓我能夠結合兩者，推動醫療專業人士的持續學習與成長。

■ 給師弟妹的忠告

學習的同時也要參加不同活動，探索及培養自己不同方面的能力並建立良好的人際關係，這會對你未來的職業生涯大有幫助。

手調飲品工作坊

6E GURUNG SAPNIL

I enjoyed this workshop because it was very educational. The workshop was about the nature of the job bartender, its career prospects, how to get into the field, and techniques of making beverages. They also taught us how to use the tools as well as make one. We tried making a mocktail called Virgin Sunset. It was quite fun to make a mocktail with a friend next to me. I hope the school organizes more workshops like this for students to relax and broaden their horizons of different job natures.

6E GURUNG AYUSHMA

I had a workshop about making mocktails in the summer. It enriches my knowledge about the job of a bartender.

First, the workshop had a brief introduction to mocktails, including what ingredients used to make mocktails. Then, the bartender started telling us about having a job as a bartender and his monthly salary. After that, he showed us a YouTube video on how to make a mocktail as an example.

In the practical session, he showed us how to make mocktails step by step. We had to follow his instructions. Before the workshop, I thought it was hard to learn and complicated, but it turned out to be easy, and I got the hang of it quickly. We then had to try our drinks we made, and they tasted better than I expected. I think the workshop is fun and practical. Not only does it help us gain the know-how of making mocktails, but we also have a better understanding of the career path of a bartender.
