有不少人對髮型行業的印象不太好，覺得只是成績不好或
輟學的同學會選擇的行業。雖然髮型行業入職的門檻很
低，但反而重視個人修養、自我進修及傳承。

因為髮型設計也是一種服務性行業，會經常面對客人，所
以我們的言行舉止十分重要，一定要以禮對待每一位客
人，希望他們最後能夠愉快地離開。

另外，自我進修及傳承也很重要，因為髮型設計沒有一條
固定公式，不能夠用同一個方法應付不同客人，所以只能
夠不斷進修，學習不同的技術，才能滿足不同客人的需
求。

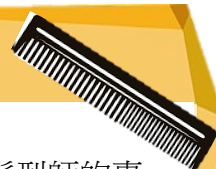

同時更要無私地教育後輩，希望培養更多優秀的髮型師。

<<給同學的話>>

每一位髮型師都會經歷過失敗，但不要
氣餒，反而更加需要檢視自己的不足，
汲取教訓，才能夠令自己不斷進步。
同學們，畢業後才是你們人生真正的序
幕，日後只會有更多的挑戰等待你們，
但請你們緊記，不要輕易放棄，因為只
有堅持才能成就自己。

<<髮型師的工作內容>>

1. 服務客人 - 聆聽客人的要求，表達自己髮型師的專業意見。
2. 髮型設計 - 運用不同技術，創造合適顧客的髮型，令顧客有煥然一新的感覺。
3. 自我進修 - 利用自己的空餘時間進修，多留意潮流趨勢及學習新的技術，令自己不斷進步。
4. 教育及分享 - 將自己的技術及經驗無私地分享給其他人，栽培下一代。

Job descriptions

The Employment Agency industry plays a crucial part in Hong Kong people's lives and economy as a lot of Hong Kong Families hire Foreign Domestic Helpers [FDH] to take care of their loved ones.

As a part-timer at Emson Employment Agency, my job responsibilities are very flexible as I mainly support my colleagues work. My job responsibilities vary from filling in documents, scanning the documents, to filling in data in the computer etc. I personally have learnt a lot of working skills since I came here. I have learnt communication skills, multi-tasking and organization skills. I would say that the environment in the office is very harmonious, my colleagues are also very friendly and willing to teach me.

Words for students:

I would like to say that I am sure that everyone has heard their teachers or seniors who have graduated said that DSE is just a small obstacle in our life. When I was in Form 5, DSE was a huge obstacle for me as I thought my future depends on it. Even though DSE is a stepping stone for our future, we should not regard it as our everything. We should enjoy our secondary school life as we will never get to experience this again. After graduating, we will start a new chapter in our lives, therefore enjoy the school life while you can.

It is also very important to know what you want to do in future. Therefore, when you start working, you should try different jobs to know what you are interested in. For example, if you are working in an office but you don't like dealing with computers and documents, then you will know that this is not the path you want to take in future. This not only can increase your working experience but it also can enrich you as person. However, I know it can be very challenging to decide what we want to do in future at our ages but I think we should focus on what we want to do and what makes us happy at this moment, if you decide to work in a certain field that you do not enjoy, imagine doing what you are not interested for your whole life. All I want to say to all of you is that just do your best and keep moving forward.
