Dear Career master/ mistress,

Launch of HKAPA Industry Talk Series

In the past forty years, The Hong Kong Academy for Performing Arts (HKAPA) has nurtured 10,000 graduates who have been actively contributing to the performing arts and related industries in Hong Kong and around the world. It is found that to be able to succeed in the rapidly changing world, they have developed some crucial and essential qualities to cope with the unforeseeable future and eventually became successful artists, cultural leaders, and even entrepreneurs.

Featuring outstanding alumni from our six Schools, the HKAPA Industry Talk Series – *The Way to Become Outstanding Performing Artists* offers valuable insights in what it takes to become true performing artists. These alumni will share how the six important graduate attributes, namely Professional and Creative Artists, Reflective Practitioners, Interdisciplinary Collaborators, Effective Communicators, Lifelong Learners, and Citizens with a Global Outlook, had supported their development of sustainable careers in performing arts. Their sharing in videos is available on our website (<https://www.hkapa.edu/industrytalks>).

Enclosed please find the poster of the Industry Talk Series. We would much appreciate it if you could post it and encourage your teachers and students to watch the videos. We also look forward to your continual support in encouraging talented students to pursue a career in performing arts.

With warmest regards,

Perrie Lai

Head of Student Recruitment and Community Engagement Office

The Hong Kong Academy for Performing Arts
