2021/2022 Notice to Parents No. A12_e
Information about the New Senior Secondary Curriculum

Dear S5 Parents,

The S5 academic year plays pivotal role in the Senior Secondary Curriculum (SSC) as it casts far-reaching impact on the students' DSE results. We would therefore draw your attention to the following whilst soliciting your support to the best end of your child's learning:

1. Core subjects:

Your child has to do 4 core compulsory subjects in the SSC, and getting 3322 (namely Chinese Language, English Language, Mathematics and Liberal Studies) in them is the pre-requisite of funded university places. Failing any of the 4 subjects poses insurmountable obstacles to chances of further studies and hence we appeal to steadfast effort from your child to meet the requirement.

2. Electives:

Apart from the 4 core subjects, all senior secondary students are doing 2 electives to pave way for their future needs. Most tertiary institutes, with a few exceptions, take into consideration of students' result of both the core and elective subjects. Hence, it is of paramount importance that students should ensure satisfactory result of at least one elective to meet the minimum requirement for university entrance.

3. Dropping one elective:

In view of the fact that some S5 students may have great difficulty coping with 2 electives in achieving ideal result, the School will give green light to them to drop one of their two electives so that they can spare more time to focus on the 4 core subjects by attending school-based enhancement lessons.

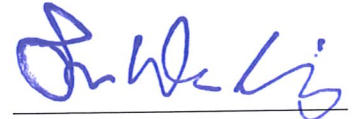

4. School-based Assessment (SBA):

SSC lays emphasis on SBA, namely accumulative coursework assessment that commences in S5 and finally accounts for varied proportions (15% to 50%) of their DSE subject result, impact of which can never be underestimated. Students should not wait until the final count-down days of DSE in S6 to work hard in one-go, but instead, they should be persistent in their perseverance in a long run. For details, please refer to the appendix.

5. School Reference Reports (SRR):

The School has to submit internal school results to JUPAS Admission Office for all S6 students for reference. Students' S5 result forms a crucial component of this report and hence all S5 students should work your best for the best academic results.

Tutorials scheduled after school, on weekends and during holidays will be a common practice for S5 students. Please pay attention to Notices regarding such arrangement that will be disseminated at due time.

Mr. LEE, Wai- shing
(Principal)

Reply Slip
(Please submit to the class teacher on 24/9/2021)

Dear Principal,

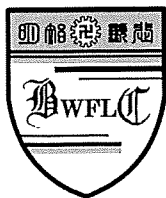

I acknowledge receipt of the Notice to Parents 2021-2022 No.A12_e regarding Information about New Senior Secondary Curriculum. I pledge to supervise my child to assume a hard-working attitude in her/his academic pursuit.
