## NCS Joyful Learning Group Work Parade

## 非華語小組工作巡禮

"Eager to learn" is one of the elements of Fung Ling Spirit we have strived to spread around the school. Throughout the year, our students never cease to shine in all the academic activities.

Eager to Learn  
樂於學習

Words for Fun Vocabulary  
Learning Class

Caring and Polite  
關愛有禮

Self-disciplined and  
Rule-abiding 自律守規

Our school values positive qualities like being caring and self-disciplined, which are also essential components of Fung Ling Spirit. Under teachers' guidance, students are gradually developing these traits as shown in the following activities.

Students are preparing cupcakes to warmly welcome our guests from Dongguan Middle School SSL School.

Sister school welcome reception

The Youth Moral Training Camp developed self-discipline through foot drill and cooking practice.

S1 Induction Program

Some S2 students are helping the new comers to learn about Hong Kong cuisine and tourist attractions.

Another virtue of Fung Ling Spirit is "Ready for Service". From being prefects at school to greeting guests outside, our students assume prominent roles in a variety of events

## Prefect

During the Prefect Inaugural Ceremony, the team leader, Kamran took an oath on behalf of his team to serve the school.

Arsh helped give out stamps to participants in the Halloween Carnival.

## English Carnival

## Library Sharing

The library organizes a sharing session once in a while. Moe, Arshdeep and Quencie seize the opportunity to introduce their cultures in their traditional costumes.

## Love Unbounded Carnival

To connect with the community, our students held a game booth and had fun with the passersby at Causeway Bay.

## English Ambassador Year-End Party

Pranita, Dannawin and Francine are receiving certificates that recognize their year-long service for the English Ambassador Team.

## Every Day @ Fung Ling 校園生活點滴

In addition to their academic success, our students live a vibrant life by displaying passion in various extra-curricular activities. Some of their efforts turned into great achievements. For example, Arshdeep and Dannawin won the 2nd runner-ups in the Hong Kong Cantonese Solo Verse Speaking Contest.

Solo verse Speaking

Basketball team training

Star student:  
Muhammad Imran (6D)

Imran was admitted to University of Hong Kong as a Science major

In the past few years, BWFLC has been taking initiative in aiding NCS students. From academics to moral education, BWFLC has never hesitated in nurturing NCS students. Our school provides extra training and mock paper practice during lunchtime and after school. We also have a few NET teachers who can communicate with parents whenever necessary. The most important thing is that the NCS teachers are well-informed about the GCE Chinese examination and try to prepare us for it. It can help students meet the basic university entrance requirements as an alternative for DSE Chinese. I, myself find this crucial in deciding one's fate.
