

A dramatic sky scene with golden light rays breaking through dark, textured clouds. The sun is low on the horizon, creating a strong backlight effect that illuminates the edges of the clouds and casts long, soft rays across the sky. The clouds are dense and billowing, with a mix of dark blues and greys on the sides and bright yellows and oranges where they catch the light. The overall mood is one of hope and divine assistance.

Heaven helps those
who help themselves.
